

beeswax food wraps by last forest

Last Forest Enterprises - our impact

Based in Kotagiri in the heart of the Nilgiri mountains, Last Forest Enterprises has been a market facilitator for wild forest produce that is harvested by indigenous communities since 1995. These communities are value adding forest and agriculture products, which are natural, wild and local.

we procure from

reusable beeswax food wraps

Replacing plastic in favour of environmentally conscious packaging alternatives is something we at Last Forest care deeply about.

Bringing to you, our beeswax food wraps – pieces of GOTS certified organic cotton cloth coated with sustainably sourced beeswax from the hives of the Giant Rock Bee in the Nilgiris. The beeswax then makes the journey to our production units where the wraps are handmade with love by women from communities in the Nilgiris.

These wraps are long-lasting, reusable, and replace plastic or aluminium foil. They are hand-washable, meaning you can use them as long as they hold up. Our bit to conserve the environment comes in a pack of three!

Easily change the shape of the wraps to cover your food, jars or bowls by just the warmth of your hands.

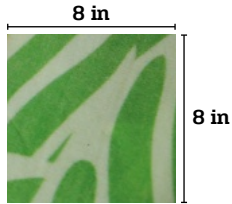

Store your favourite food – fruits, cheese, vegetables, food rolls or anything that you would usually take on the go to a picnic, to work or a get together!

go eco-friendly!

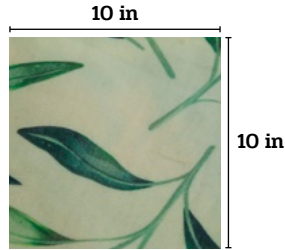

beeswax food wraps - pack of 3

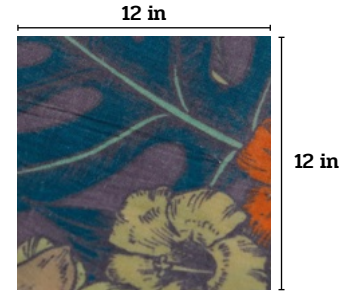

8x8 inches

Ideal to cover small unused pieces of fruits and vegetables or cover jars.

10x10 inches

Ideal for food rolls, sandwiches, cheese and for enveloping bowls.

12x12 inches

Ideal to wrap breads, greens, larger dishes.

beeswax food wrap roll

Our beeswax food wrap comes in a convenient roll, allowing you to easily cut off the desired size for any food storage needs. These wraps are a sustainable alternative to plastic wrap, as they are biodegradable and compostable. Simply use the warmth of your hands to mould the wrap around your food, creating a secure seal to keep it fresh. These wraps can be used to cover bowls, wrap sandwiches, or even store produce in the fridge. Not only are they a eco-friendly choice, they also add a natural and rustic touch to your food storage. Plus, the beeswax used in our wraps is sustainably sourced, supporting local honey gatherers. Make the switch to beeswax food wraps and reduce your environmental impact while keeping your food fresh!

we can customize!

We offer the convenience of customizing the size of the beeswax wraps to fit your requirements!

**Custom-made wraps will be sold without our retail packaging.
Offer available for bulk orders only.**

natural beeswax

Beeswax is a natural by-product of honey. Beeswax (*cera alba*) is a natural wax produced by honey bees of the genus *Apis*. Beeswax has been used since prehistoric times for various purposes, from making candles to polishing wood and leather. Beeswax is edible which makes it non-toxic and a great ingredient for food wraps.

Our beeswax is harvested from the *Apis dorsata* bees, as a by-product of our signature range of honey.

fair-trade

The World Fair Trade Organization is a global community of social enterprises that practice fair trade.

WFTO's Guarantee System is the only international verification model focused on social enterprises that put the interests of workers, farmers and artisans first.

Last Forest is certified fair trade.
