Wintergreen Oil

Therapeutic Essential Oil available in 100ml, 50ml bottles

We've all used the term 'evergreen' to portray plants and trees that stay green throughout all seasons. A lesser-known fact is that the word 'Wintergreen' was used prior to it becoming popular! Wintergreen or *Gaultheria Procumbens* is an evergreen plant which has various uses in its essential oil form.

Extracted from the very plant that has made the word Wintergreen its own, Last Forest's Wintergreen Oil is a traditional remedy to treat muscle and joint pains. Due to its ability to counter inflammation and infection, Wintergreen Oil is used for a number of health problems like respiratory issues such as asthma, colds, and flu.

Wintergreen is absorbed into skin quickly and can even act like a natural numbing agent when massaged into skin. It promotes blood circulation and has a cooling effect on irritation, which is comforting to swollen skin.

Additionally, wintergreen helps combat bacteria, virus and fungi, so it can be used widely around the house. It can be applied to the dishwasher, showers, toilets, and sinks. It is used as an antibacterial, air freshener, mouth freshener, and for medicinal purposes such as numbing pain given its strong minty smell.

Citronella Oil

Therapeutic Essential Oil available in 100ml, 50ml bottles

Citronella oil is not only a highly effective essential oil, but is highly versatile, making it one of the most sought-after oils! It is best to mix with carrier oils (such as coconut oil) before applying on the body. Just a few drops of this oil is effective enough to last for a long time.

Citronella oil is an excellent insect and mosquito repellent. Use it to keep insects away from you and your house! Citronella oil can combat insects including mosquitoes, head lice, fleas and flies.

Teeming with potent anti-bacterial properties, this oil also makes for an excellent disinfectant/sanitizer. Just a few drops of Citronella Oil added to water when mopping floors or sprinkling a few drops on your bedsheets and pillows, keep the area sanitized and fresh!

Additionally, Citronella Oil inhibits fungal growth. Fungal infections can cause serious health hazards. The antifungal properties of Citronella Oil may fight infections particularly in the ear, nose and throat region. Citronella is also used for oily skin, excessive perspiration, and aromatherapy.

Eucalyptus Oil

Therapeutic Essential Oil available in 100ml, 50ml bottles

This essential oil, extracted from Eucalyptus leaves in the Blue Mountains of the Nilgiris has powerful healing properties! Eucalyptus Oil works wonders with its properties as an extremely versatile oil.

The benefits of Eucalyptus Oil include its ability to stimulate immunity, its richness in antioxidants, and its ability to improve respiratory circulation. Respiratory conditions such as asthma and sinusitis may be helped by inhaling steam with added eucalyptus oil. It is the perfect remedy for the symptoms of cold and flu by soothing congestion and relieving chest pain.

Diluted Eucalyptus Oil may be used on the skin to fight inflammation and promote healing cuts and wounds, as well as cold and flu!

Just a small drop can work wonders! It can be used in a diffuser as well, to transport the enchanting smell of the Nilgiri eucalyptus into your home.

Almond Oil

Therapeutic Essential Oil available in 100ml bottle

A classic quality carrier oil to use for massages, Almond Oil has been valued for centuries! The benefits of Almond Oil on the body and hair provides a rich platter of uses. It is non-irritating and hence can be used on sensitive skin types! Just a few drops of the oil is enough to maintain flawless hair and skin.

Almond Oil gently lubricates and softens the skin. More than soothing dry skin, Almond Oil can improve complexion and skin tone. It's highly emollient, which means it helps to balance the absorption of moisture and water loss. Studies have shown that the application of Almond Oil may prevent damage to the skin caused by prolonged exposure to the sun's ultraviolet rays and also slow down the ageing process.

It can also be used to soften hair and make it stronger. Almond Oil helps to control itchy dandruff, inflamed scalp, and prevent hair fall. Almond Oil is rich in vitamin E which acts as an antioxidant.

Clove Oil

Therapeutic Essential Oil available in 10ml bottle

Last Forest brings to you Clove Oil, collected by water distillation of clove buds, stem and leaves.

Clove Oil is used to season food, add flavour to hot beverages and bring spicy warmth to cookies and cakes! But sometimes, our teeth are sensitive and relishing some of these dishes can be painstaking! Don't fret, Last Forest's Clove Oil has got you covered! It nullifies dental pain making it a must have! The properties of clove in this oil, help protect the teeth against plaque, odour and helps strengthen the gum!

Clove Oil helps in cuts, burns, toothache, rheumatic pains, ulcers, sprains, nausea and minor infections. Clove Oil is often used as the active ingredient to soothe the itching and burning.

Some foods, like liver and fish, can cause unpleasant odours in your house when you're cooking. Burning some clove-scented oils or incense after cooking can help soak up the offensive odours and replace them with a more pleasant scent! It is also used to kill household mold spores.

Tea Tree Oil

Therapeutic Essential Oil available in 10ml bottle

Tea Tree Oil also known as melaleuca oil or ti tree oil is an essential oil with a fresh odour and a colour that ranges from pale yellow to nearly colourless and clear. This Tea Tree essential oil is extracted through steam distillation from leaves and twigs of Tea Tree. Just a few drops of this oil is enough for a long-lasting effect

Tea Tree Oil has a plethora of uses and benefits. It makes an ideal natural hand sanitizer and insect repellent. It can be used as a natural deodorant, antiseptic for minor cuts and scrapes, boost wound healing and fight acne to name a few!

An all-rounder oil, Tea Tree is active against all three varieties of infectious organisms – bacteria, fungus, and virus.

Lavender Oil

Aromatherapy Oil available in 10ml bottle

There's more to Lavender that meets the eye! Not only is it a fragrant plant, but lavender has plenty medicinal and therapeutic benefits! Lavender Oil is collected by steam distillation of fresh and partially dried petals. Our Lavender Oil is 100% all-natural with no additives, giving you the purest product possible. Just a few drops of this oil is effective enough, meaning it lasts for a really long time!

Lavender Oil has a goldmine of benefits that work effectively on both the body and mind! A universal oil which is good for all skin types, it helps with allergies, burns, inflammations, pains, aches, abdominal cramps, nervous tensions, insomnia, depression, and stress related conditions. Placing a few drops of Lavender Oil in your diffuser or on your pillow before going to sleep can keep you from tossing and turning in bed, giving you a good night's sleep!

A few drops in the rinse cycle gives laundry a very nice scent. Cotton balls treated with Lavender Oil make an effective moth repellent, either in the closet or between clothes in a drawer. Lavender also repels cockroaches.

Jojoba Oil

Aromatherapy Oil available in 10ml bottle

Extracted from the nut of the Jojoba plant which is native to the continent of South America. Jojoba oil is a carrier oil that has fine penetration, and has the consistency of liquid wax. Just a few drops of Last Forest's Jojoba Oil is enough to work wonders on your skin!

Jojoba Oil has moisturising and anti-inflammatory properties that make it an ultra-healing ailment for common skin and hair problems! Jojoba is very similar to the sebum produced by our own skin; it is particularly beneficial in facial and body treatments. It is stable and long lasting. It is a good conditioner for all skin types, especially mature skins. Jojoba is also effective for dryness and dandruff and can be massaged on its own into the hair and scalp. Jojoba Oil is a humectant, this means that it works to attract water to the top layer of the skin, helping to keep the skin hydrated.

Jojoba Oil contains antimicrobial and anti-fungal properties, killing certain bacteria and fungi that can cause skin irritation. Jojoba Oil also contains natural forms of vitamin E. This vitamin works with your skin as an antioxidant.

It is the best choice to use as a perfume base because it is the least greasy of the carrier oils and has an odourless character.

Lemongrass Oil

Aromatherapy Oil available in 10ml bottle

Lemongrass Oil is extracted through steam distillation from fresh & partially dried grass. Lemongrass Oil is extensively used as a diffuser for aromatherapy because of its sweet, lemony aroma which is excellent to ward off unpleasant smells and headaches, and relax your mind and body!

In addition, Lemongrass Oil is said to act as a natural insect repellent and air freshener and may also alleviate stress and relieve pain. Lemongrass contains compounds that are thought to have anti-inflammatory properties.

Apart from helping with headaches and migranes, Lemongrass Oil is said to help in scabies, tissue toner, muscular pains, poor circulation, colitis, indigestion, gastro-enteritis, etc. In traditional Indian medicine, this oil has a long history of use against infectious illness and fevers.

The scent of Lemongrass is uplifting and refreshing, which is good for tired, sweaty feet or as a rinse for greasy hair.
